

DTU ASTA Acknowledgment Guidelines

Please help us strengthen the profile of our facility by crediting DTU ASTA on various platforms. See below some examples of how you can do this. The wording does not have to be exactly this but similar, so there is some consistency.

Please always include the unique identifier: **DTUASTA20**.

1. In publications (research papers, journals, etc.):

- Include a statement in the acknowledgments section of your publication.

Example: "The authors would like to thank the Technical University of Denmark and DTU Autonomous Systems Test Arena (DTUASTA20) for [describe specific contributions]."

2. In reports or documents (student reports, theses, research project reports):

- Include an acknowledgment section in reports or project documents.

Example: "Special thanks to DTU Autonomous Systems Test Arena (DTUASTA20) for [describe specific contributions]."

3. In presentations:

- Verbally acknowledge the contributions of the facility.

Example: "Special thanks to the Technical University of Denmark and DTU Autonomous Systems Test Arena for [describe specific contributions]."

- If possible, include a written statement mentioning the identifier: DTUASTA20.

4. On websites or project pages:

- Create a section on your project website or page dedicated to acknowledgments.

Example: "We extend our thanks to the Technical University of Denmark and DTU Autonomous Systems Test Arena (DTUASTA20) for [mention specific contributions]."

5. On social media:

- Use the tag #DTUASTA to acknowledge and promote the facility on social media platforms. Please note that this version does not contain the number at the end.

Thank you for recognizing the contributions of DTU ASTA!
